THE THREE THAT DECIDE WHETHER YOU FINISH

- ☐ **1. Never leave a station until a judge says so.**
If you cannot tell, ask. Ten seconds beats a DQ.
- ☐ **2. Count your own run laps.**
Venue lap screens are a convenience, not a record.
- ☐ **3. Doubles: run at the worse day's pace.**
Ten second gap. Three infringements and you are out.

DOUBLES

10 SECOND MAX GAP · 3 INFRINGEMENTS = NO RANKING

- Resting partner stays on their feet. No kneeling or sitting.
- Kettlebells and sandbag never pass forward. Sideways or back.
- No flying wall ball transitions. Sled pull: never touch the rope.

RELAY — THE ONE NOBODY KNOWS

Going back to back? You still run through the transition zone after every workout so your chip is read. Missing it is an automatic penalty.

Finish: 4th leaves TZ > other three take spectator paths > enter at the relay point once they are throwing > all four cross together.
